Technical Rider & Stage Plot – Chugg A Lugg (2026)

This technical rider is intended to help both the promoter and the band ensure a smooth and successful production. Please read the following requirements carefully.

For any technical questions, please contact:

Andreas Günther

Technical Contact

Mobile: +49 176 1487 6660

E-mail: info@chuggalugg.com

Monitoring:

The band currently requires three (3) monitor mixes:

* Bobby Maddox – Electric Guitar & Lead Vocals

Front Left – 1 × Monitor / 230V power outlet

* Andy Gi – Bass Guitar & Vocals

Front Right – 1 × Monitor / 230V power outlet

* Yene – Drums & Vocals

Drum Position – 1 × Monitor

FOH

Chugg A Lugg do not travel with their own sound engineer. We kindly ask the promoter to provide a competent FOH engineer who is familiar with the venue's sound system and available as the technical contact throughout the production.

Please note:

Chugg A Lugg are currently in the process of transitioning to an in-ear monitoring system. Until further notice, conventional stage monitors as specified above are required.

Thank you for taking the time to review our technical rider.

About the Band

Chugg A Lugg play high-energy Pint Rock – honest, powerful Rock'n'Roll with strong melodies, driving grooves and a close connection to the audience.

If any part of this rider cannot be accommodated, please don't hesitate to contact our technical representative in advance. We are always happy to work together to find the best possible solution.

If it can't be done the way it should, it must be done the way it can.

Thank you for your support. We look forward to working with you and to a great show.
